Preface

This language focus book for the primary school English teacher is created based on the project of supervision of teaching aids development through ERIC Networking in association with the project of improving students’ English learning achievement in the Office of Phetchaburi Primary Educational Service Area 1.

This book has been designed for EFL primary school teachers. The contents in the book are elicited from several books used in schools. The book is compiled of 3 components of language – vocabulary, language structures and language functions.

The aim of this book is to be used as a handbook and a primary source for primary school English teachers to create teaching aids in order to enhance English proficiency and teaching competency via dynamic activities.

The Office of Phetchaburi Primary Educational Service Area 1 expects that this book will benefit to all English teachers including the others who are interested in improving English teaching and learning competency.

We would like to express our gratitude to the involved committee in completing this book.
